- **Servers automated inventory**
 - OCSng inventory server deployment & customisation
 - Massive deployment of OCSng's agent (Linux & Solaris)
 - Full assets lifecycle workflow design

IN A FEW WORDS

Over the last **15 years**, I worked in all major areas of an IT department, from **development** to **infrastructure**, through **networking** and **data management**.

As a **self-learner**, my career is driven by my love for **technical** and **human challenges**.

As a **freelancer**, I like to **push innovation** beyond limits and bring to my customers the **best value** each technology can deliver.

My motto in life comes from Gandhi:

*"Live as if you were to die tomorrow.
Learn as if you were to live forever."*

KEY SKILLS

Linux Red Hat Debian FreeBSD
Virtualisation VMware oVirt/RHEV
Cloud AWS Satellite 5/6 Docker
Puppet Ansible Jenkins Bash
Python Perl PHP Java Git C
Asterisk Apache MySQL Bind

Project Management Industrialisation
DevOps Team Leading Self-learner

Dual Profile IT & Common Law
Compliance Data Protection
Intellectual Property Licensing

Developing skills:

OpenShift Node.js Kubernetes
